WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	**Eye or muscle twitching**	**Loss of awareness**
Altered vision	**Involuntary movements**	**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

WELCOME TO THE WORLD OF RACING – KARNAAJ RALLY STYLE!

Take your pick of 14 vehicles and 12 drivers to race around 22 tracks. Command your car's power with turbo boosts, quick brake control and go-for-broke speed. Slow down your opponents by dropping mines on the track, or take them out of the race with rockets. Race through Career Mode to open more vehicles and tracks and don't forget to pick up the prize money- you're going to need cash for a bigger engine, more ammo and the occasional trip to the bookie.

Karnaaj Rally saves your best race time and lets you top it in Ghost Mode racing. But don't keep your winning record to yourself; multiplayer allows up to four of your friends to get into the action. *Karnaaj Rally* displays stunning graphics that will excite any racing fan.

START YOUR ENGINES!

Insert the Karnaaj Rally Game Pak into your Game Boy Advance and turn the power on. Press **START** or the **A Button** when the Title Screen appears to advance to the Select Career Screen.

The first time you enter this screen it will be empty, so simply press the **A Button** to advance to the Difficulty Level Screen. Choose a level that suits you best. To do this, use the +**Control Pad** ◀ **and** ▶ and the **A Button** to select EASY, NORMAL or HARD.

Name that character!

Once again, use the +**Control Pad** to navigate and the **A Button** to select letters. To delete the last selected letter use the BACK icon and to accept the entire name, select the END icon at the lower right corner of the letter grid.

Character Select

Now for the line up! Use the **+Control Pad** to cycle through the available drivers and the **A Button** to select your character.

Once you have your driver, you can choose the game mode. For now, choose SINGLE PLAYER, and then the QUICK RACE.

Track Select

Using the +**Control Pad**, cycle through the tracks and press the **A Button** to select a track.

Vehicle Select

Use the +**Control Pad ▲ and ▼** to cycle through vehicles and the +**Control Pad ◀ and ▶** to change the vehicle's color. Press the **A Button** to select you ride!

4...3...2...1 and RACE!

HEY KID, EVER THOUGHT ABOUT A CAREER IN RACING?

At the start of the game you are a rookie driver, striving to become rich and famous. To achieve your ambition, you must practice hard and simply be the best of the best. Your career will span several racing seasons, from foot-driven Jurassic vehicles to rocket-powered vehicles of the future. In each racing season you will have to master your vehicle and respective courses to reach the next season. Each time you finish the race, you will receive a payment allowing you to improve your vehicle's capabilities. The higher you place, the more money you are paid out. At the end of the racing season only the highest ranked driver advances to the competition.

Start Your Career

After going through the Title Screen and selecting your character, choose SINGLE PLAYER. Press the **A Button** and on the next screen choose CAREER MODE.

Racing Tips from the Chief

The Chief is there to help – really, he is.

After receiving tips from the …um expert, move on to the Inventory Screen. This is where you can improve your vehicle, reload your arsenal, view rankings or place a bet to increase your earnings from the race. But be careful - you only have a limited amount of cash, so make your decisions wisely.

KARNAAJ RALLY GARAGE

Select SHOP to upgrade your vehicle's abilities, including; tires, engine and improvement to the overall condition of your vehicle. When you finish shopping, select DONE.

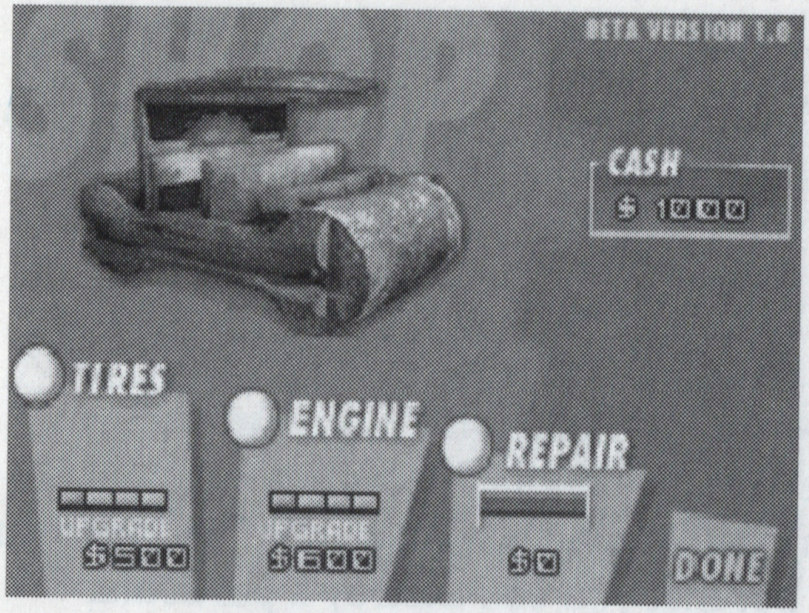

Improves Grip and Handling

Better engine, better acceleration and maximum speed

Destroy your vehicle and you immediately finish the race and automatically go to the last position in the race – so don't forget your repairs!

What's a Race Without Rockets?

Choose ARMORY to refill your ammunition or get some armor to protect the vehicle from opponent's hits and crashes. Rockets are used to hit and disable the driver in front of you, while mines shake those pesky drivers off your tail. Armor improves the durability of your vehicle, making it less vulnerable to mines, rockets or simple crashes.

IT'S ALL ABOUT WINNING!

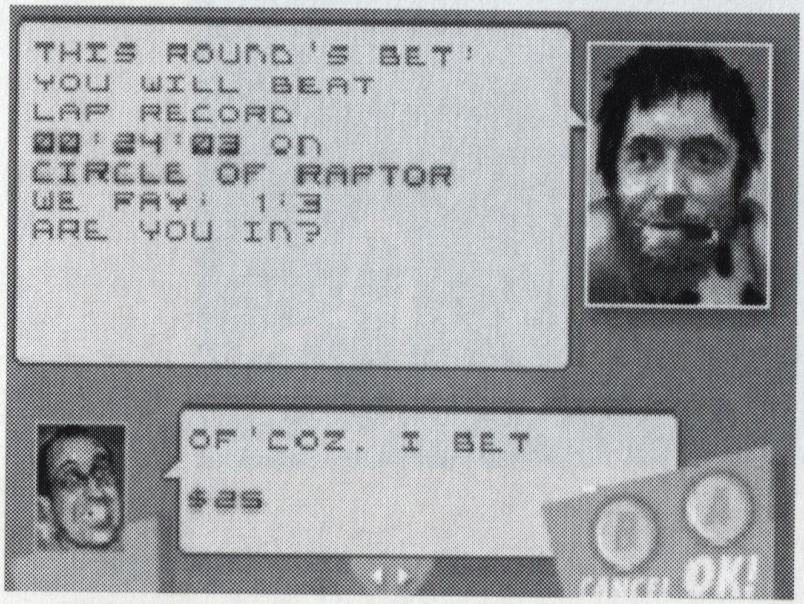

Choose RANKING to view the current season's ranking. You can meet your opponents and see what kind of vehicles they use. Check out the competition, when you're done press the **A Button.**

Place Your Bets

Choose BET to step up to the bookie's window. Place a bet to win more money to upgrade your vehicle or buy ammunition. There are several kinds of bets; you can predict the correct order of racers at the finish line, bet you will place first, bet that you will finish the race in given time limit or even bet that you can destroy a particular opponent's vehicle. You can win your wage multiplied by the bet's factor (1:2, 1:3 etc.). To select options in this menu use the **+Control Pad.** When you're done, press the **A Button.** If you want to go back without betting, use the **B Button.**

When you are done with the Inventory menu, choose GO in the lower right-hand corner.

Track Info

This screen shows you the track name, a diagram of the course and the prize money for the race. To go back to the inventory menu, press the **B Button.** But to start your racing career, press the **A Button** and get ready to rumble!

After the Track Info Screen you will move directly to the race. But don't worry; you're not racing without a pit crew. In the corners of the screen you can view your current position, turbo fuel level, vehicle destruction degree, current race time, laps to go and total number of laps, mini-map and ammo levels.

So, How Did You Do?

When the race ends, you will see the official race times. You can check times of every driver in the race, current track and lap records and time of your best lap.

Press the **A Button,** to check the money you won for the race. You can get cash by collecting it on the road, winning the prize money for the race and for winning your bets. Press the **A Button** to move on.

Remember, It's all about winning!

After every race you receive some points. The amount of points depends on how you placed in the race.

1st = 3 points
2nd = 2 points
3rd = 1 point
4th = nada

The amount of points dictates the player's position in the overall season ranking. To go to the next season, you have to rank number one – there's no room for second place in this competition.

Next to each character's mug shot you can see the number of points in ranking, number of points gained from the last race and possibly an arrow, up when player moves up and down for when he drops. Press the **A Button** to go to the Inventory Screen.

Times are tight and you need cash!

When you are out of money having spent too much on weapons or mistaken bets, you can improve your situation by collecting items during the race. While cruising the track, spot the items which appear randomly. When you spot these items, drive through the icon and collect them. Here's what to look for:

Rockets – destroy or temporary stop the player in front of you.

Money – you always need money!

Turbo Fuel – boost your vehicle for short bursts of power.

Wrench – for every wrench you collect, your Vehicles Destruction Meter decreases.

No Einstein, you can't collect mines; they tend to go boom!

SAVE YOUR CAREER FOR THE RECORD BOOKS

If you have to stop playing the game, you can save your career in the Game Pak's memory.

At the Inventory Screen choose BACK option in the left-hand corner. You will be asked if you want to save your career. Choose YES to save; if not, choose NO and return to the Inventory Screen. Next time you turn the game on; you can choose the saved career or start a new one. You've got four slots for four careers; try different drivers and different vehicles to find a winning combination.

Deleting a Career

When you are ready to start a new career and there are no free slots in the game, you must delete one of the saved careers. Select a slot with the **+Control Pad ▲ and ▼** and then press the **B Button.** You will be asked to confirm your decision; YES will delete the selected career, NO will return to the Career Select Screen.

INFINITE DREAMS 2002

SINGLE PLAYER

Career Mode - We covered this at the beginning of the manual.

Load Career - Load another career from the Game Pak's memory. When you choose an empty slot, you will create a new character and begin a new career.

Quick Race - Select a track, select a car and then go directly to the race. You can change the Quick Race settings in the Options menu (see the Options section).

Ghost Mode - Select a track, select a car and then go directly to the race. In the Ghost Mode you race against yourself; compete against your best time from the current session. Beginning at the second lap, there is a ghost (semitransparent) vehicle, which follows your precise track from your previous lap.

To leave any race before the finish, press **START**, in the on-screen menu select ABORT and press **START** again.

Track Selection

In the beginning there were dinosaurs and you. The only available tracks when you start *Karnaaj Rally* are from the Jurassic period. But don't fear, as you race from season to season you open new tracks that are available in all modes of play. To select a track use the **+Control Pad ◄ and ►** then press the **A Button.** To go back to game menu press the **B Button.**

Vehicle Selection

In the beginning there were dinosaurs and you – ok you've heard it before. The same rules apply to cars; the more you race the more you have to choose from. To select a vehicle use the **+Control Pad ▲ and ▼;** to change vehicle's color use the **+Control Pad ◄ and ►.** When you finish, press the **A Button.** To go back to Track Selection Screen, press the **B Button.**

MULTI PLAYER

You can play *Karnaaj Rally* with your friends; up to four persons can play via the Game Boy Advance Game Link® cable. You will need 2 to 4 Game Paks of *Karnaaj Rally* and an appropriate number of Game Link® cables (depending on number of players).

Linking Instructions:

1. Make sure that the Power Switches on all of the game systems are turned OFF, then insert the *Karnaaj Rally* Game Pak into Player 1's Game Pak slot.

2. Connect the Game Link® cables (see Game Boy User Manual for link scheme).

3. Turn each system's Power Switch ON.

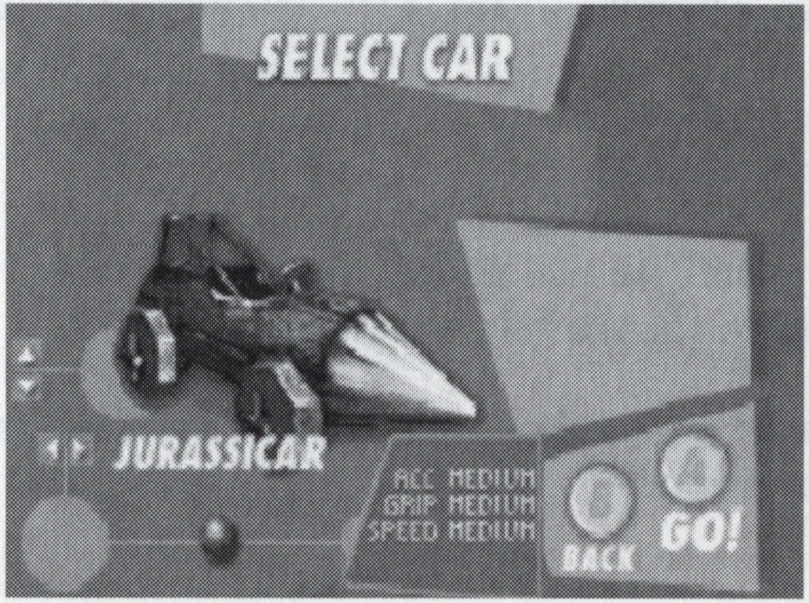

One of the systems will become the Master System (we will refer it as Master); other systems will work on Slave Mode (we will refer to them as Slaves).

Go to the Main Screen (just like in normal game mode). You can choose one of the saved careers or create new careers just for multiplayer mode.

In the Main Screen choose option MULTIPLAYER. On the Slave system(s) you will see a list of players and four little pictures of systems. The highlighted ones refer to linked game systems.

At this time the Master System can choose the race program and the order of tracks for a multiplayer game. You can add tracks to the list (pressing the **A Button**) or delete them from list (pressing the **B Button**). To select a track use **+Control Pad ◄ and ►. +Control Pad ▲ and ▼** allows you to select a slot on the track list. When you finish composing the track list, highlight DONE and press the **A Button.**

The next screen on the Master System sets the options for the game. You can allot prize money, set the number of laps for every track (selecting DEFAULT will set a default

number of laps for each track). You can enable (ON) or disable (OFF) the in-game shop. You can also include (COMPUTER: ON) or exclude (COMPUTER: OFF) players from race and you can set the aggression level (AI: EASY, NORMAL, HARD). To change settings use the **+Control Pad.** When you finish with settings, press the **A Button.** If you want to return to track list, press the **B Button.** When you press the **A Button,** you will see if every player is linked and all the settings are correct.

Now you are ready to get down to business. Press the **A Button** to advance to the Vehicle Select Screen where everyone can choose a car. Think before you choose, you can't change your car until all the races are finished. Save your money for upgrades and weapons so you're not a sitting duck on the race track. Once you've picked a car press the **A Button** and get ready to go!

In the Racing Screen, every system behaves as it would in SINGLE PLAYER mode, but instead of computer driven cars you are competing against your friends for pride, bragging rights and of course Money!

Hi-Scores

Use this screen to check the best times for a given track or see the codes you can enter on our website www.jaleco.com. Use codes on the *Karnaaj Rally* website to compete with other players around the world!

To choose different tracks use the **+Control Pad ◀ and ▶.** To see codes, press **START.**

OH WE GOT OPTIONS!

You can make changes to the SOUNDS, QUICK RACE and HIGH SCORES settings.

Sounds - Set the volume or disable the background music and/or sound effects. Available settings are: DISABLED, LOW, MEDIUM, HIGH and MAX.

Quick Race - set the number of Laps, Engine level (acceleration and speed), Tires level (grip and handling), Armor level (vehicle's durability), if opponents are selected randomly or they are each time the same and game difficulty level.

Hi-Scores - Reset times for the best races and laps, exchange scores with other units via a link cable or enter codes from another source.

Credits - See who's responsible for all this.

TIPS FROM THE PIT CREW

To win the race you must be fast. But a big engine is not the only factor in constantly winning. So here are some tips to improve your chances.

1. At the start of the race use **B Button** for a Turbo Boost. This gives you a few seconds of additional power and allows you to charge to the lead. But be careful, your opponents may have rockets! Don't hesitate to use your own weapons; strategically place mines behind you to disrupt any challenges to your lead.

2. When you see an opponent in front of you, use your rockets. But don't shoot too many at once - think smart. Conserve you weapons so you have ammunition when you need it most. Remember, you can collect rockets on the road, but to get mines you have to buy them in the ARMORY.

3. Keep your eye on the prize – money! Of course, the best way to earn money is to win the race, but don't forget – other methods exist. If you are feeling lucky head to the bookie and place a bet. But before you place a bet, you may want to upgrade your car. At the very least repair all the damages you incurred during the last race. This way you will insure yourself of finishing the next race and collecting some prize money.
